## DURA-FLEX® SOLID TIRES

### AERIAL WORK PLATFORM/TELEHANDLER

Nobody knows quality like **Nighthawk**. We are committed to providing extraordinary value to our customers. We built our reputation on excellent customer service and products of **superior quality and reliability**.

We stand behind our word with **The Nighthawk Advantage** – our promise to you to always provide:

- exceptional quality,
- the industry's leading warranty, and
- our "best value" guarantee.

**Nighthawk Dura-Flex®** solid tires are built strong for maximum performance in all types of terrain and operating conditions. We combine superior technology, expert manufacturing, and premium materials to create a product you can trust. *Our goal is to eliminate your downtime.*

Our aperture design is specifically engineered for heavy loads, providing a smooth, cushioned ride without the bounce associated with pneumatic or foam-filled tires. This unique design reduces operator fatigue and offers greater stability control.

**Nighthawk Dura-Flex®** solid tires deliver the ultimate in performance, reliability, and value; making **Nighthawk Dura-Flex®** solid tires **the ideal choice for telehandlers, aerial work platforms, rough-terrain forklifts and boom lifts**.

#### PRODUCT FEATURES

- Specially designed for telehandlers and aerial work platforms
- Manufactured in state-of-the-art facilities
- Constructed from our proprietary rubber compound
- Superior stability and durability as compared to foam-filled tires
- Available in a wide range of configurations

#### PRODUCT BENEFITS

- Guaranteed 100% flat proof
- Enhanced reliability and value
- Less downtime and lower cost-per-hour
- Resistance to abrasion, cutting, and chunking
- Maximum performance in the toughest conditions

## VERSATILE COMPATIBILITY

**Nighthawk Dura-Flex®** solid tires are available in a wide range of configurations and fit the most common makes and models of telehandlers, aerial work platforms, rough-terrain forklifts and boom lifts. Nighthawk manufactures solid tire replacements for the following pneumatic sizes:
